

INDUSTRIAL HIGH BOY... Andrew "Red" Baker, (arrow) National Supply Co. maintenance man, finds his work rather elevating.—Herald Photo.

### Local Man Finds Work Has Its Ups and Downs

When there's a nip in the air and the wind blows raw off the Pacific, Andrew "Everybody-calls-me-Red" Baker wonders why he didn't grow up to be an accountant, or a watch fixer.

Red's job as maintenance man at the National Supply Co., although elevating, can be uncomfortable—such as when he is repairing a gutter on the eave of a roof some 60 feet above the ground and the wind is giving his air seat the waltz-me-around-again-Willie treatment.

But when the weather is good, Red's job can't be beat, the industrial high boy claims. You just take your place in the small lift, the big boom lifts you up, and there you can work in peace without the annoyance of anyone looking over your shoulder, said Baker, who lives at 2429 W. 103rd street.

### "Tax Guide" On Nation's Best Seller List

"Your Federal Income Tax," the official guide for taxpayers published by the Bureau of Internal Revenue, has established itself near the top on national best-seller lists, according to information released today. Over 200,000 copies of this 138-page tax book, which is available from the Superintendent of Documents, Government Printing Office, at 25c a copy, were sold during the first 5 weeks since publication.

This new and improved edition of "Your Federal Income Tax" covers, in a series of short articles, questions which may come up concerning tax returns; it covers the latest laws, Bureau rulings, and court decisions. Chapters have been added which cover installment sales and the important appeals procedure.

#### FEW FATALITIES

Passenger fatalities for trolley coach, street car and bus travel average 1.75 per million miles.

#### OLD-TIME CLOCKS

Most of the grandfather or tallcase clocks in the U.S. were manufactured between 1770 and 1840.
